Notice.

Beginning the first of the year, THE SENTINEL has decided to charge a half-rate to churches, schools and all societies, for all local and notices published, where there is a money consideration made by the churches, schools, societies, etc. All of the papers in the county have always charged for this class of matter, and in justice to ourselves and our contemporaries, and on account of the increased cost of all things entering into the production of a newspaper, we have decided to adopt this course.

Bigelow and Vicinity.

George Conway in the News-Jeffersonian of last week, has the following about the happenings in and around Bigelow:

—J. H. Harrison shipped two cars of straw to Falls City, Nebraska, the latter part of last week.

—A. G. Reno shipped a car load of ear corn to the Farber Seed Co., St. Joseph, one day last week.

—John Dodson arrived Sunday noon, from Dean, Iowa, with a car load of thoroughbred Short Horn cattle. They are sure a nice bunch of cattle and John intends to keep the standard and handle nothing but strictly thoroughbred stuff.

—M. A. McIntyre and Ray Forney left Tuesday noon, for Pueblo, Colorado, going via the Union Pacific road from Kansas City. They will stop off at several points along the Union Pacific line in Colorado and take a look at the country with a view to taking up homesteads or buying some of the land.

—Dave Smith, Jr., finished grading the road running north from the Morris Bros.' farm and also the road running north from where Ed. Graham lives. This is a big improvement for these two roads, and for which several made up a purse to grade some

time ago. Little Dave is sure on the job all the time and knows how to grade a road.

—John Gallop met with what might have been a serious accident about a half mile east of Big Ditch Bridge last Sunday evening. He was driving his Ford car east and in meeting a team coming west he turned out too far and his car turned turtle. There were five men in the car and all were more or less bruised, but no bones broken. Outside of a broken wind shield and radius rods the car was on the job.

—Oscar Lease has a new way of stopping his car; he was going down the road the other day just south of Jake Hinkle's place and ran into a tree that stands at the cross roads and when the car hit the tree the car stopped alright. Oscar says some one moved the tree when he wasn't looking. Rather surprised at Oscar, too, for he has been considered a very careful driver; chances are it would be a better plan for him to let his wife drive the car hereafter.

Barn Burns.

Tuesday evening of last week, November 24th, about 4 p. m., H. N. Spellman's new barn was discovered to be on fire. The family had done the chores early so as to attend church in town that evening, and all were in the house when the fire was noticed. There had been no fire around the barn during the day and it is thought the fire was caused by spontaneous combustion as there were about ten tons of alfalfa hay in the barn and about two hundred bushels of corn, which was a total loss. The horses and harness were saved. This is quite a loss to Mr. Spellman as the barn was a new one and had been built last summer; there was some insurance and Mr. Spellman will rebuild immediately.
